CLAIMS

What is claimed is:

1. A system for providing access to detailed payment experience, comprising: at least one processor for capturing detailed trade data from a plurality of sources, calculating a plurality of summarized variables and a manner of payment and a high credit amount based on said detailed trade data, calculating a plurality of scores using said summarized variables, and providing a report using said detailed trade data, said plurality of summarized variables, and said plurality of scores; and

at least one storage device for storing and providing access to said detailed trade data, said plurality of summarized variables, and said plurality of scores.

- 2. The system according to claim 1, wherein said plurality of summarized variables is computed for a time period selected from the group consisting of: 3-months, 6-months, and 9-months.
- 3. The system according to claim 1, wherein said manner of payment and said high credit amount are calculated for a 24-month period.
- 4. The system according to claim 1, wherein said plurality of scores is calculated for a time period selected from the group consisting of: over a 3-months, 6-months, 9-months, 12-months, and 16-months.
- 5. A system for providing access to detailed payment experience, comprising: a data acquisition component for capturing detailed trade data from a plurality of sources;

Attorney Docket No. 384.7873USU

a data calculator for calculating a plurality summarized variables and a manner of payment and a high credit amount based on said detailed trade data;

a data synthesizer for calculating a plurality of scores using said summarized variables;

at least one storage device for storing and providing access to said detailed trade data, said plurality of summarized variables, and said plurality of scores; and a reporter for providing a report using said detailed trade data, said plurality of summarized variables, and said plurality of scores.

- 6. The system according to claim 5, wherein said plurality of summarized variables is computed for a time period selected from the group consisting of: 3-months, 6-months, and 9-months.
- 7. The system according to claim 5, wherein said manner of payment and said high credit amount are calculated for a 24-month period.
- 8. The system according to claim 5, wherein said plurality of scores is calculated for a time period selected from the group consisting of: over a 3-months, 6-months, 9-months, 12-months, and 16-months.
- 9. The system according to claim 5, further comprising: a data quality component for modifying data in said plurality of storage devices based on quality criteria.
- 10. The system according to claim 5, wherein said plurality of scores comprises an industry-specific score and a credit-range-specific score.

į,

- 11. The system according to claim 5, wherein said storage device is at least one selected from the group consisting of: a detailed trade data warehouse, a product trade data mart; and an analytical trade data mart.
- 12. The system according to claim 5, wherein said report comprises data selected from the group consisting of: a summary, a dollar-weighted indicator of payment performance, a trend analysis, payment experiences and any combination thereof.
- 13. A method for providing access to detailed payment experience, comprising: capturing detailed trade data from a plurality of sources; calculating a plurality of summarized variables and a manner of payment and a high credit amount based on said detailed trade data;

calculating a plurality of scores using said summarized variables; storing and providing access to said detailed trade data, said plurality of summarized variables, and said plurality of scores; and

providing a report using said detailed trade data, said plurality of summarized variables, and said plurality of scores.

- 14. The method according to claim 13, wherein said plurality of summarized variables is computed for a time period selected from the group consisting of: 3-months, 6-months, and 9-months.
- 15. The method according to claim 13, wherein said manner of payment and said high credit amount are calculated for a 24-month period.
- 16. The method according to claim 13, wherein said plurality of scores is calculated for a time period selected from the group consisting of: over a 3-months, 6-months, 9-months, 12-months, and 16-months.

, t

- 17. The method according to claim 13, further comprising: modifying data in said plurality of storage devices based on quality criteria.
- 18. The method according to claim 13, wherein said plurality of scores comprises an industry-specific score and a credit-range-specific score.
- 19. The method according to claim 13, wherein said storage device is at least one selected from the group consisting of: a detailed trade data warehouse, a product trade data mart; and an analytical trade data mart.
- 20. The method according to claim 13, wherein said report comprises data selected from the group consisting of: a summary, a dollar-weighted indicator of payment performance, a trend analysis, payment experiences, and any combination thereof.
- 21. A computer-readable medium having executable instructions stored thereon to perform a method for providing access to detailed payment experience, said method comprising:

capturing detailed trade data from a plurality of sources;
calculating a plurality of summarized variables and a manner of payment
and a high credit amount based on said detailed trade data;

calculating a plurality of scores using said summarized variables; storing and providing access to said detailed trade data, said plurality of summarized variables, and said plurality of scores; and

providing a report using said detailed trade data, said plurality of summarized variables, and said plurality of scores.

Attorney Docket No. 384.7873USU

- 22. The method according to claim 21, wherein said plurality of summarized variables is computed for a time period selected from the group consisting of: 3-months, 6-months, and 9-months.
- 23. The method according to claim 21, wherein said manner of payment and said high credit amount are calculated for a 24-month period.
- 24. The method according to claim 21, wherein said plurality of scores is calculated for a time period selected from the group consisting of: over a 3-months, 6-months, 9-months, 12-months, and 16-months.
